WORK

Freelance
Product Design
2017-Present

Served a range of contracts, including a year at Dropbox which involved owning the success of the company marketing platform.

Inscriptive
Product Design
2016-2017

Second design hire at small (<10) seed-round startup. Spearheaded UX design and oversaw implementation for key product features.

PlanGrid
Product Design
2015-2016

Lead product rollout to thousands of active users on new platform. Designed and tested additions and improvements to core product.

Square
Production Design
2012-2014

Involved in research, strategy, implementation, and UI polish for several products, including a successful new product launch.

Co-ops
UI/UX Design
2009–2011

Interned twice as User Experience designer for the Apple Web team. Also interned at Lands' End, Inc., Aniden, and Hello Design.
